

## The New Standard In Productivity

Features	DS-150	DS-180
Speed - 1 sheet letter fold	Up to 4,500/hour	Up to 5,500/hour
Speed for 2 sheets collated	Up to 3,400/hour	Up to 4,700/hour
Modules + base	Up to 4	Up to 8
Feeders	Up to 9	Up to 17
Documents feeder capacity	500 or 1,000 sheets	
Envelopes feeder capacity	400	800
Sealing fluid capacity	1 liter	10 liters
Touch screen control		Yes
Automatic job setup		Yes
Multiple sheet feeding		Yes
Cascade from feeders		Yes
Divert bin for documents		Yes
Hand feeding		Yes
Electric Postage Meter Interface		Yes
Job memory		Unlimited
Fold types	letter, zigzag, single, double parallel, no fold $\triangle Z Z \triangleleft \_$	
Folding capacity	Up to 8 sheets	
Envelope output conveyor	500	
<b>Material Specifications</b>		
Documents size	76 x 140 mm to 228 x 406 mm	
Envelopes size	89 x 152 mm to 165 x 264 mm	
Insert thickness	Max. 4 mm	
Set thickness	Max. 6 mm	
<b>Mail Quality and Security</b>		
Accumulation before folding	Yes (optional)	
Optical Mark Recognition (OMR)	Yes (optional)	
Barcode Reading (BCR)	Yes (optional)	
2D data matrix	Yes (optional)	
Automatic double detection	Yes (all feeders)	
Automatic document measurement	Yes (all feeders)	

### Adapt The DS-150/180 System to Your Needs

The modular design of the folder inserter can be configured with 1 to 17 feeders using the Performance Version, so you can always have the capacity to meet the changing needs of your business.

- Simply add the right module at the right time - as applications change or your company grows.
- DS-150/180 modularity assures that your equipment investment is cost effective today and into the future.
- With the electronic Postage Meter Interface (PMI) with sorting capability, mail is automatically metered and sorted in one seamless process.

### Why Choose Neopost?

Neopost is a global leader in mailing solutions, shipping services and digital communications. We believe that people are the key to business success. That's why our products and services are tailored to help your organization improve the quality of its interactions and bring people closer together.

In this age of multichannel communications, we guide and empower you to interact in new and innovative ways. We advise you on how to create cost-cutting synergies. And we deliver global coverage with a strong local presence, offering you continual support by phone, onsite or online.

Today, Neopost is present in 31 countries and has a network of partners in more than 90 countries. We promote responsible business and sustainable development through our products and outreach programs. And our 6,200 employees worldwide are committed to making your interactions more responsive and more powerful - offering you a competitive edge that will open up a wealth of business opportunities.

Folder Inserter

## The New Standard In Productivity

# Designed to Meet Your Productivity Requirements

## The DS-150/180 folding inserting systems makes operational excellence a reality for your mail processing needs.

Its modular design supports the widest range of mailing applications - from direct mail campaigns to highly sensitive mailings such as medical billing, payroll and financial statements; the DS-150/180 has the features and technology to meet the demands of your business with ease.

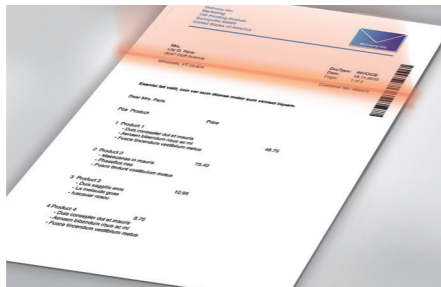

Enhance the productivity of your mail center with the DS-180. It has earned the designation of the "Performance Version" for its increased processing speed, envelope capacity, enhanced sealing capacity and productivity. The DS-180 can be customized to process your applications with up to 8 system modules and 17 feeders.

Automate and simplify the final step of your mail processing to further maximize productivity. The DS-180 optional output sorting capabilities and Postage Meter Interface (PMI) eliminate manual tasks, which are time consuming and prone to human error. The DS-150 and DS-180 offer a range of features to meet the new standard in productivity for your business.

### Automate & Secure Your Document Processing

Neopost's Output Management Software (OMS) can add more value to your documents by allowing you to:

- Automatically add barcodes to drive your folder inserter
- Select inserts from multiple trays
- Guarantee your mail integrity with secure control marks
- Split print files based on your criteria

### Content Control and Security You Can Rely On

The exclusive Neopost® scanning device can read many types of coding, including OMR 1 and 2 tracks, 1D barcodes and 2D data matrix. Furthermore, the code can be printed anywhere on the document, providing the flexibility to fulfill any layout requirement.

It is also a secure foundation for complete, detailed and accurate reporting of your mail production. The DS-150/180 can deliver a full production report, including a record of each scanned document, to verify the integrity of every mailing.

## Neopost Cares For The Environment

Neopost aims to use materials in their products that have a high potential for reuse or recycling.

Neopost has reached a new level of efficiency mostly due to an automatic standby mode. The DS-150 and 180 are also compliant with environmental regulations (ErP, REACH, RoHS and WEEE).

**Energy:** The DS-150 and DS-180 save up to 55%\* of energy (based on average use of 75,000 envelopes/month) due to the automatic standby mode.

**Recyclability:** The recyclability at the end-of-life of DS-150 and DS-180 is at least 85% (in weight).

\* Compared to our previous models DS-100 and DS-140

### State-Of-The-Art User Interface

The DS-150/180's large color graphic interface reaches new heights in user friendliness and workflow programming. Once a job has been programmed into memory, running it is a simple matter of loading the trays, selecting the job and pressing start. Even changing over to a completely different job takes only a few minutes.

The DS-150/180 streamlines productivity every step of the way, from efficient paper loading to predictive intelligence that estimates when your job will be completed.

### Maximize Your Productivity

The DS-180 Performance Version delivers optimum practical speed - maximizing your mail center's productivity.

- High processing speed (up to 5,500 documents per hour)
- Fast multi-sheet collation (up to 4,700 envelopes per hour for 2 sheets collated)
- Cascading mode to maximize practical speed
- High capacity document and envelope feeders
